

## DC Public Policy Issue Alert- Cable TV Choice

**Government** 2008-11-11 15:33:16

Washington, DC (**CapitalWirePR**) November 11, 2008 – Verizon is delivering America’s fastest broadband network to thousands of homes in the Washington metro area — and with it, a real and better alternative to cable TV — Verizon FiOS TV.

Consumers in the District of Columbia can join millions of households across America free to choose this new entertainment experience.

The DC Council soon will vote on legislation that will make more cable TV choice and competition a reality.

Visit <http://www.tvchoicedc.com> to learn more about FiOS and lend your voice to bring more cable TV choice and competition to the District.
