

Life of the Coronavirus

Health 2020-05-27 20:40:36

Washington, DC - Remember, the coronavirus, also known as COVID-19 and 2019-Ncov, can live on:

- Plastic for 3 Days • Cardboard for 24 Hours • Steel for 3 Days • Copper for 4 Hours • Stays in the Air for up 3 Hours

To prevent its transmission and infection, clean and disinfect regularly.
